

Pathway to level 4 Laser Hair Removal

Pathway to level 4 laser hair removal, prepares the learners to have minimal experience in the beauty industry and start up their own laser hair removal business.

This course is designed to prepare the learners to:

- Develop a broad understanding of Health and Safety practice
- Understanding skin analysis, anatomy, and physiology.
- Consultation and patient assessment.
- Provides the knowledge of understanding client concerns and any underlying issues
- Ensuring that correct protocols have been taken into consideration
- Understanding what treatments are safe to perform in a safe and effective manner on the face and body.
- Practical treatments provide knowledge and practical skills required to perform treatments on the face and body, the course is a combination of practical, face to face, online theory and study of wide range of materials such as Anatomy and Physiology, marketing, product knowledge and client education and consultation. Practical and theory training is delivered by a trained assessor/practitioner by Million Dollar Academy.

This is a 4-day course:
